The BBC and Master User Group and Public Domain Library

17 Lambert Park Road, Hedon, Hull, HU12 8HF
FAX Telephone (0482) 896868

Thank you for your enquiry.

8-Bit Software is a postal user group with a regular disc based magazine and a very large library of Public Domain (free) software for the BBC and Master computers. Membership of the group is free. The disc based magazine will cost you only 50p as long as you send a disc and return postage and packing.

Ideally, you should send me a formatted disc with return postage and packing to see the 8-Bit Software catalogue/info disc. If you would also like to see the latest magazine, please include a second disc and 50p. Make sure that the return postage is sufficient (usually 38p first class).

Send either DFS or ADFS format discs. You may also send 5.25" or 3.5" discs. BBS prefers 80 track discs although will make up 40 track discs on request.

The appended pages contain a very brief catalogue summary, only the headings. For a full listing you need to examine the catalogue disc.

Use a separate sheet if you wish.

The Software in this catalogue is free. The charges made cover the cost of disc, postage, packing and all the other incidental costs of copying discs. You are free to copy the software and pass it on to friends. Be sure to tell them where you got it from!

You may find that some programs can be found on more than one disc in this catalogue. However there are no two discs the same.

Master Compact users. You CAN use the DFS discs in this catalogue! If you don't know how, ask for advice when placing your software order.

You may have any of the many ROM images in this catalogue supplied on eprom. The charge is 3 pounds extra. Just tell me which image from which disc you require.
